Education

Vellore Institute of Technology

Bachelor of Technology, Major in Computer Science and Engineering with Cyber security and Digital Forensic

Bhopal, Madhya Pradesh
Sep2023 onwards

Amrita Vidyalayam Puducherry (10th – 12th)

Puducherry, Puducherry
Mar 2017 - Mar 2023

Skills

Cybersecurity: Penetration Testing, Digital Forensics, Threat Analysis, Adversary Simulation, Web & Network Attacks, OSINT, Vulnerability Assessment, Ethical Hacking.

Security Tools: Wireshark, Nmap, Metasploit, Burp Suite.

Programming: Python, C++, C#, Assembly (x86/x64, ARM).

Technologies: React.js, Flask, Supabase, MySQL.

Soft Skills: Communication, Collaboration, CTF Teamwork, Project Management, Adaptive Learning Projects .

PROJECTS:

DIGIFORENSICS AI - React.js, Supabase (April 2025)

Developed an AI-powered digital evidence management system for law enforcement agencies featuring role-based authentication, secure evidence storage, and real-time case tracking dashboards using React.js, TypeScript, and Supabase services.

KRONTOS PINCODE SERVICEABILITY - Python, Data Structures (February 2024)

Engineered an optimized pin code verification system for e-commerce delivery networks using custom 2D matrix-based mapping, processing datasets of 10,000+ pin codes while reducing verification latency by 40%.

MOBILE CALL LOG ANALYZER - Flask, Python (December 2024)

Built a forensic call log analysis tool capable of processing 5,000+ records, visualizing communication patterns and call trends using Python, Pandas, Matplotlib, and Flask.

Certification:

- CRTA – Certified Red Team Analyst (May2026)
- Deloitte Cyber Job Simulation (May 2025)
- Tata Cyber Analyst (May 2025)
- IBM Cybersecurity Fundamentals (Oct 2024)
- Cyber Conclave CTF 2024(Mar 2025) - *2nd Place Winner*
- Google Cybersecurity Certificate - Coursera (Feb 2025)

Language:

English, Tamil
